Post Office Drawer 11649  
Columbia SC 29211

Subject: Docket No. 2004-357-WS (Page 2, SEWER)

Gentlemen:

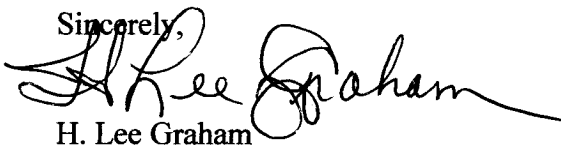

The proposed 29.48% increase in monthly sewer charge for King's Grant residents is out of line, outrageous, exorbitant, and not in the good interest of good business sense. I cannot recall nor do I know of any resident who has received such an increase in their FIXED income. The amount of increase requested by the Utility Company is ridiculous and should not be granted.

Further, the service being performed by this company in King's Grant is well below par. For quite sometime we've been bothered by sewer odor(s) and this company have failed to correct the problem(s).

As a retired person having lived in King's Grant since 1972, I personally would prefer that 0 percent increase be approved until their problems are fixed, and than an increase proportionate to costs of living increases granted to retired persons would be a little more palatable.

We appreciate the job you do for us and we respectfully request that this requested increase not be granted.

Sincerely,

H. Lee Graham
